SAFETY POLICY

The policy of the University of Wollongong is to provide a safe working environment for its staff, students and visitors. As a consequence of this, the University encourages all members of the University complex to regard accident prevention and safe working as a collective and individual responsibility.

In order to implement this policy, the University supports the activities of the Occupational Health and Safety Committee in monitoring the safety environment and safety awareness and training at all levels of activity.

The University regards seriously its corporate responsibility under the various Occupational Health and Safety Statutes and will ensure that all members of the University staff understand clearly their individual responsibilities outlined in such legislation. In this regard, Heads of Departments and other Academic and Administrative Units are responsible for day to day safety within their areas of responsibility. The Safety Officer is available to advise on specific matters or assist in implementing safety programmes.

The University insists that all staff and students work within the various legal requirements with regard to safe working and the current, and future, safety rules devised to protect them in specific situations.

Personal habits and conduct on campus should be such that they do not cause accidents nor create hazards which may endanger members of the University or other persons.
