Know how to……?

Verify that a journal title is scholarly by using Ulrich's International Periodical Directory.

To access it go to the Library’s homepage, click on Databases > U > Ulrich's International Periodical Directory.

- Change the Keyword search to a Title (exact) or Title (keyword)
- Enter the title of the journal in the search box
- Click on submit
- See the Legend for the Refereed icon
- Scroll down page to results

If the Refereed icon appears next to the journal title, the journal is considered Academic/Scholarly. This may be confirmed by clicking on the title of the journal. A description of the journal is shown and the field labelled Document Type notes the journal as being Academic/Scholarly.
