

CONNECTING AN IPHONE OR IPOD TOUCH DEVICE RUNNING 3.0

1. Select the Settings app

2. Choose Wi-Fi from the list of options

Wi-Fi

Not Connected >

3. Next, choose the UOW network from the list of available networks

UOW

4. This will require you to enter your SOLS username and password. Hit 'Join' after you have typed these.

5. You will then be exited to the Wi-Fi Networks preference pane again. To configure the proxy, touch the blue icon on the end of UOW 

6. Scroll down to HTTP Proxy, choose Auto and then enter <http://www.uow.edu.au/autopproxy.pac> and hit return when you're done.

7. Exit out of the Wi-Fi Networks preference pane. You should now be able to access the internet on your iPhone. Please note that some third party applications and email accounts other than @uow.edu.au addresses do not work.
